

USER STORIES FOR LIBRARY MANAGEMENT SYSTEM

- As a member of the library I want to be able to search for available books so that I can check them out with my library card number.
 - As a member of the library I want to be able to have access to my account so that I can make changes and pay any overdue library fines.
 - As a member of the library I want to put books on hold that I am interested in so that I can check them out quickly when they become available.
 - As a member of the library I want to be able to renew items as many as two times so that I can keep the items past their original due date without being fined for them.
 - As a member of the library I want to be able to register for a library card so that I can check out books.
-
- As a librarian I want to be able to add, remove, and update books in the database so that I can maintain the book collection.
 - As a librarian I want to be able to administer fines and put on a user's account so that they can pay their fines.
 - As a librarian I want to be able to send a reminder email to library card members three days before their books are due so that they can be reminded of the due date.
